MDR seminar MDR revision proposal

BV **Med** **EASSI**

MDR Online Seminar | MDR Revision proposal

25th March 2026

Overview

About

In December 2025, the EU Commission published the long-awaited MDR and IVDR revision text.

It contains many industry-driven proposals to reduce bureaucracy and simplify the system.

The proposal must be viewed in conjunction with Annex VII, the Implementing Act, which regulates the processes and requirements for notified bodies in conformity assessment procedures.

Object

In this webinar, we will present the proposed positive changes and challenges from the proposed text of the MDR proposal and the Annex VII implementing act. Also the consequences for practical application will be discussed.

All participants are welcome to send any questions in advance by email to Ricarda Sünwoldt (suenwoldt@bvmed.de) in advance.

Target audience

The online seminar is organised exclusively for EASSI member companies and BVMed member companies and is free of charge.

The seminar will be held in English.
