Medical Device Reimbursement in Europe

Topic

Every European country has its distinct development of health care system, **different reimbursement logic** and particular regulations. The scope and role of statutory health insurances also vary.

Although all of these countries require medical devices to be registered in a specific list or directory, the procedure, required documentation, fees, validity and resulting reimbursement rates vary from country to country. It takes a lot of time and effort for manufacturers to familiarize themselves with these specifics.

Goals and Targetgroup

This seminar is aimed at manufacturers of medical devices who (wish to) make their products available on the European market. Even though there are similarities between the German and other European healthcare systems, it is essential to understand them thoroughly in order to successfully enter the market.

This is particularly important for new entrants, but even successful manufacturers can benefit from insights into simpler and faster processes. The aim is to familiarize medical technology companies with local reimbursement rules, key requirements, and success factors in selected countries.

The seminars, including seminar materials, are held **exclusively in English**.

Speaker

> Oleg Borisenko, MD, PhD

Director
European Med Tech und IVD Reimbursement Consulting Ltd.
(MTRC) | Stockholm (Schweden)

Mr. Borisenko is considered an expert in the healthcare industry in these countries and has proven, long-standing experience in the field of reimbursement.

Federal Association of Medical Technology (BVMed) | Berlin

Registration

Registration open until April 27, 2027

www.bvmed.de/reimbursement27-isbnas

Participation is only possible with prior registration. You will receive a registration confirmation by email.

Participants will receive the **access data** by email no later than 2 days before the online seminar will start.

Participation fee

single seminar

seminar series

BVMed Member

249.00 Euro | plus VAT
296,31 Euro | incl. VAT

BVMed Member

590.00 Euro | plus VAT
702.10 Euro | incl. VAT

Non-Member

279.00 Euro | plus VAT
332,01 Euro | incl. VAT

Non-Member

670.00 Euro | plus VAT
797,30 Euro | incl. VAT

The participation fee applies per person. Webinar documents and certificate of participation are included.

Invoicing will take place after the online seminar has been held or, if booking a online seminar series, after the first online seminar has been held. The participation fee is due after receipt of the invoice without any deductions.

Cancellation

Free of charge is possible no later than 5 days before the online seminar will start. Please note the »**terms and conditions of participation and cancellation**«. A partial refund upon termination of the entire booked series before the last online seminar is excluded.

Program changes

The BVMed Academy reserves the right to **change lecturers and / or postpone or change the program sequence**. If an event has to be canceled for reasons for which the BVMed Academy is responsible, only participation fees that have already been paid will be reimbursed. Further claims are excluded.
